Physiatrist

Located just 30 minutes east of Toronto, in beautiful Durham Region, Lakeridge Health offers an exciting opportunity to work with a multidisciplinary team in providing and advancing our rehabilitation services. You will work under the general direction of the Chief of Medicine and the Medical Director of the Post Acute Specialty Services Program, to assess and manage the rehabilitative care and integrated medical components of patient care. The patients that you will see will have a wide range of neuromuscular problems such as amputations, complex wounds, traumatic fractures, neuropathy, spasticity, spinal cord injury, strokes, and multiple sclerosis.

Physiatrists at Lakeridge Health function in a consultant role, as our robust, well-established hospitalist program functions as MRP for most medical and rehab patients. We have a 23-bed integrated rehabilitation unit, a 28-bed integrated stroke unit and a 26-bed geriatric rehabilitation unit. Our Ambulatory Rehabilitation Centre Physiatry Clinic includes an EMG clinic, post-stroke follow-up clinic, spasticity management clinic, and prosthetic clinic. If you hold an FRCP in Physiatry and want to have busy in-patient and out-patient practices, Lakeridge Health is perfect for you.
