Ambulatory Rehabilitation Centres: Outpatient Neurological Rehabilitation

What we do:

Our team offers outpatient therapy to people with a neurological condition. We will work to help you reach your goals to regain as much independence as possible.

We offer in-person, virtual and telephone visits.

You may be eligible for our service if you have had:

- A recent stroke
- A recent brain injury
- A new neurological condition or event

To be eligible, you must be:

- Over 18 years of age
- Referred by a doctor
- Medically stable
- Able to take part in therapy
- Able to arrange own transportation to our clinic

We can help you:

- Re-learn daily activities
- Improve your memory and thinking skills
- Improve your movement and balance
- Improve your walking and endurance
- Improve your ability to speak, read and write
- Link with community services and supports

Your healthcare team:

Your healthcare team may include one or more of the following members:

- Occupational Therapist
- Speech-Language Pathologist
- Physiotherapist
- Occupational Therapy and Physiotherapy Assistant

What you can expect:

- Your first appointment will last about 1 hour, per therapist.
- How often you attend therapy appointments and how long you are in the program will be determined by you and your therapists.
