

Central East Prehospital Care Program

MEMORANDUM

TO: All York Region Advanced Care Paramedics

FROM: Dr R. Vandersluis
Chair, Medical Advisory Committee CEPCP

DATE: 2012 10 25

RE: ATLANTIC trial

It has come to our attention that we may have missed some opportunities to enroll patients due to technical difficulties with transmitting the 12 leads and patching to Southlake. In discussion with Dr Cantor and York EMS, we have revised the medical directive removing the requirement to transmit the 12 lead and patch prior to enrolling the patient. We believe this will improve the flow of the call. Southlake retains the ability to receive the 12 leads and patches and they may be used on a case by case basis.

A revised medical directive is attached to this memo for your reference.

An updated video, reflecting the changes is currently being uploaded to our website. All ACPs are encouraged to review the video and complete and submit the quiz (regardless of having completed it before).

Please contact our office should you have additional questions or concerns.
