7. Queering Cancer offers resources and supports from LGBTQ2+ communities for you and your family members/partners-in-care.

Website: queeringcancer.ca

8. Rethink Breast Cancer Network

Offers you a community of support from other young women with personal experiences with breast cancer. Website: rethinkbreastcancer.com

Your breast cancer treatments may decrease the number and quality of eggs in your ovaries. This means you may find it harder or you may be unable to get pregnant after treatment. Your risk of infertility after treatment depends on a number of factors. The most important factors include:

- your age at diagnosis
- your age when you plan to get pregnant
- the type and dose of cancer treatment

For more information, see the Before Decision Aid at:

fertilityaid.rethinkbreastcancer.com/decision-aid

9. Uncovered: A Breast Recognition Project

Offers you an online collection of stories and experience of Black, Indigenous and People of Colour living with breast cancer. For more information, go to the website found at rethinkbreastcancer.com/uncovered

10. Wellspring

Offers programs and services for you and your family members/partners-in-care.
